

FIFRA Sec. 2(ee) Recommendation

Rely[®] 280

Herbicide

For control of grape sucker in New York.

This Technical Information Bulletin expires on December 31, 2023.

EPA Reg. No. 7969-448

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA.

All applicable directions, restrictions, precautions, and Conditions of Sale and Warranty on the EPA registered label are to be followed. Refer to the container label for additional instructions. Always read and follow label directions.

Information contained in this Technical Information Bulletin is not intended to replace or amend any product labeling. Always read and follow all label directions when using any pesticide alone or in tank mix combinations.

The user must have this recommendation in their possession at the time of use. Follow all applicable directions, restrictions, Worker Protection Standard (WPS) requirements, and precautions on the EPA registered label.

Directions For Use

Rely[®] 280 herbicide is labeled for use in grapes for weed control. In addition, **Rely 280** will reduce or eliminate sucker growth when applied to grape vine suckers that are young, green, and uncalled. For sucker control, apply a split application approximately 4 weeks apart of 56 fl ozs/A in a broadcast application. Coverage of all sucker foliage is necessary for optimum control. Suckers should not exceed 12 inches in length. **Rely 280** should be applied broadcast in a minimum of 15 gallons of water per acre to achieve complete coverage of sucker foliage and terminal buds.

Application Restrictions

- **DO NOT** apply more than 246 fl ozs/A of **Rely 280** in any calendar year.
- **DO NOT** make spot or directed spray applications to vine trunk as injury may occur.
- Avoid contact of **Rely 280** solution, spray, drift, or mist with green bark, stems or foliage as injury may occur.
- **Not for use in Nassau and Suffolk counties.**
