

CROP EXCELLENCE[®]

CARBON PLUS 0-0-1

GUARANTEED ANALYSIS

INGREDIENT	WEIGHT %
Lignite	30-60%*
Potassium hydroxide	1 - 5%*

* The exact percentage (concentration) of composition has been withheld as a trade secret.

Also contains Non-Plant Food Ingredients: Concentrated Humic Substances

Derived from: Leonardite, potassium hydroxide

CAUTION

KEEP OUT OF REACH OF CHILDREN

GENERAL INFORMATION

CARBON PLUS is a unique blend of humic and fulvic acids that excels both in nutrient compatibility and agronomic performance. It is designed for use in conjunction with concentrated fertilizer solutions applied to the soil or foliage, enhancing the uptake of nutrients and overall efficiency of nutrient use. It is recommended for use as part of a balanced fertilization program to support optimum plant health, growth, and development.

DIRECTIONS FOR USE

CARBON PLUS can be used on any crop. It can be applied directly to the soil, through irrigation or foliar applied, mixed with enough water to obtain thorough foliar coverage. **CARBON PLUS** can aid plants in the uptake of micronutrients from the soil or nutrient solutions.

CROP RECOMMENDATIONS

Foliar Application: During plant growth and development make up to five applications of **CARBON PLUS** at a rate of 1-2 pints/ac, with care not to exceed 10 gal/ac/year.

Topdress, in conjunction to with Nitrogen solutions: 1 qt/10 gals of nitrogen solution in irrigation water:

CARBON PLUS can be applied with irrigation water, alone, or with fertilizers.

In-furrow soil application: Apply **CARBON PLUS** directly to the soil alone or with nutrient solutions at 1-2 qts/ac.

Vegetable and row crops: Apply **CARBON PLUS** in the four most critical growth stages of any given crop, such as germination, vegetative growth, flowering, fruit set, and fruit development at a rate of 1-3 gal/ac.

Turf & Ornamentals: Apply **CARBON PLUS** at a rate of 8-16 oz/1000square feet directly to the soil or in conjunction with fertilizer solutions.

Seed treatment and water transplant application:

Use ¼ -1 gal/ac of **CARBON PLUS** with 25 gals of water as seed treatment spray or mist or as transplant water.

NET CONTENTS: 275 GALLONS

NET WEIGHT: 2365 LBS

PRECAUTIONARY STATEMENTS

Harmful if swallowed. Avoid contact with skin, eyes, or clothing. In case of contact, immediately flush skin or eyes with water for at least 15 minutes.

CARBON PLUS is compatible with most insecticides, fungicides, and herbicides as well as neutral, and alkaline fertilizers, so it can be used in combinations with foliar applications or fertigation programs. **CARBON PLUS** is not phytotoxic at the recommended rates. When using **CARBON PLUS** with other products, add **CARBON PLUS** to the tank or water, before mixing in the other products.

CAUTION: DO NOT USE CARBON PLUS in conjunction with calcium-based fertilizers or with acidic fertilizer solutions (pH<6). For fertilizer rates suitable to your geographical area or the maximum allowable non-nutrient application rates per acre, consult a trained soil specialist/Certified Crop Advisor or contact Carolina Eastern, Inc. using the contact information below.
